

Design Stacker II

Our most popular chair, the Design Stacker II is designed with specific features to enable it to function as a superb church chair. The seat cushions extend to the outside edge of the frame, so that when ganged together they form a continuous bench-style seat. The waterfall front facilitates a comfortable seating posture.

With 3 1/4" foam on the seat, 2" foam on the back and a recessed lumbar support, comfort is paramount. The underseat bookrack and Communion cup holder is an optional extra. These chairs can be stacked easily.

your comfort is our business
